

## AEROSOL CLEANER

# CONTACT CLEANER

### F E A T U R E S

- Removes contaminants from electronic / electromechanical parts
- Non-Flammable Spray
- Dries fast and is residual free
- 26,000 Dielectric Strength
- For use on circuit boards, circuit breakers, terminals, tuners, office equipment, audio and visual recording equipment

### P R O P E R T I E S

**Appearance:** Colorless liquid with solvent odor.

**Boiling point:** 124 °F

**Specific gravity:** 1.55 gr/cc

**Non volatiles:** 5-10 %

**Solubility in water:** Insoluble

**Storage stability:** Keep away from high temperatures, flames, and acids

**pH of liquid:** Very Basic

**Flammability:** Non-flammable aerosol

**Packaging:** 12x12oz Net Wt. Cans/Case

CONTACT CLEANER is a high purity, high dielectric strength, non-flammable spray specially formulated to remove oil, grease, condensation and other contaminants from sophisticated electronic and electromechanical parts.

CONTACT CLEANER is fast drying and will not harm Neoprene W, Buna N, Buna S, silicone rubber, butyl, natural rubber, Thiokol FA, hypalon and polyurethane. Its 26,000 dielectric strength makes it ideal for use on circuit boards, circuit breakers, relays, control panels and other electronic equipment. Do not use on styrene or polystyrene. Spot test certain plastic before applying.

To use, spray directly onto surface. Use extension tube for hard to reach areas. Refer to the label and MSDS for additional instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by Interchem.
