

AIR CONDITIONER MAINTENANCE

PAN PURGE

PROFESSIONAL AIR CONDITIONER PRODUCTS

F E A T U R E S

- Slow release Quaternary-Surfactant cleaner
- Maintains free flowing condensate pans and drains
- Partially water soluble
- No odor
- Contained in an inert fabric sleeve
- Easy to replace
- Biodegradable

P R O P E R T I E S

Appearance: Impregnated wax strip covered with a polyester fabric.

Flash point: Non-flammable

Specific gravity: 0.80 gr/cc

Non volatiles: 60-63 %

Solubility in water: 50-55 %

Chemical type: Quaternary ammonium salts -surfactant

Storage stability: Keep away from direct sun light and Acid products.

Melting point: 42 °C

Packaging: 1.5", 3", 6", 9", 12", 24".
Cases of 25 and 100 units.

- Properties are typical and subject to usual manufacturing tolerances.

PAN PURGE is a partially water soluble wax strip that releases its cleaning and unclogging agents over time and with humidity. PAN PURGE contains high levels of active ingredients to clear fouling from condensate pans and maintain free flowing drain lines in air conditioning systems, keeping out bad odors. Simply remove the clear plastic wrapper and place PAN PURGE in air conditioning condensate pan at the end farthest from the drain opening. Use 3 inch strip for 3 ton capacity, 6 inch strip for 6 ton capacity, and so on. Wash hands thoroughly after handling PAN PURGE. Refer to the attached MSDS for additional precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by Interchem.
