

# Glovieworks Heavy Duty Orange Nitrile Gloves

Ideal for applications requiring Strong Chemical Resistance, from cleaning to scientific research to the automotive industry.

## Applications:

- ◆ Automotive
- ◆ Manufacturing
- ◆ Janitorial
- ◆ Plumbing
- ◆ Paint Shops
- ◆ Heavy Duty & Industrial

## Product Features:

- ◆ High visibility
- ◆ 7mil to 10mil
- ◆ Super diamond plate texture for enhanced grip in greasy/wet applications

## Product Description:

Glove works Heavy Duty Orange Nitrile gloves feature a true raised diamond texture for incredible grip. The bold, high visibility orange color really stands out and enhances safety. Glove works Heavy Duty Orange Nitrile has the dexterity of a 7 mil glove, but due to the enhanced texture, has the durability of a 10 mil glove. The perfect balance of better dexterity and better protection.

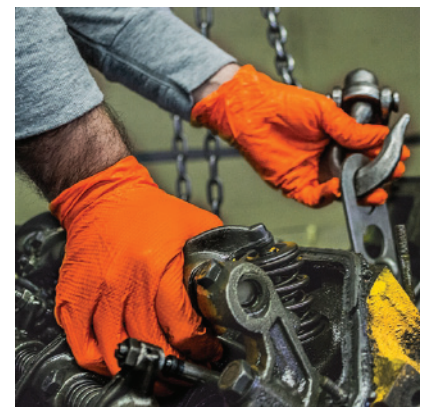

This glove features excellent chemical resistance from common chemicals, like pesticides and many other specialty chemicals, such as iodine, brake fluid or butane. And its powder free for working with sticky adhesives or wet paint so that no residue from your gloves can get in the way of a perfect finish. The inside of the glove features a polymer coating, which makes it easy to don or remove when you need a fresh pair.
