CLASSES OF FIRES	TYPES OF FIRES	PICTURE SYMBOL
<b>A</b>	Wood, paper, cloth, trash & other ordinary materials.	
<b>B</b>	Gasoline, oil, paint and other flammable liquids.	
<b>C</b>	May be used on fires involving live electrical equipment without danger to the operator.	

AVAILABLE IN WHEELED AND STATIONARY MODELS.

**TITAN Pro Series ABC Portable Fire Extinguishers** use a siliconized Mono Ammonium Phosphate Dry Chemical. This powder smothers Class A fires by coating the surface of the material and melting into a blanket.

On Class B fires the Dry Chemical stifles the burning vapour and restricts oxygen flow, reducing flashback. ABC Dry Chemical powder will not conduct electricity back to the user.
