

Nothing Sticks but the Shine!

“After a month of building up road crud, the side of the [car] treated with RejeX came clean with one swipe of the sponge...”

CAR AND DRIVER

“On paint in good condition, it eliminates the need for waxes, and one application will last up to 12 months.”

“Lasts longer than any wax job”

SOUTHERN BOATING

“We were impressed with this product’s ability to keep bug splats and exhaust stains from sticking to paint.”

The Aviation Consumer

REJEX®

RejeX® is an advanced polymer treatment – not merely a wax or polish – that seals and protects cars, boats, trucks, RVs, motorcycles, off-road vehicles and aircraft against bird droppings, exhaust stains, bug splats, oil, grease, mineral and hard water deposits, and other dirt and grime.

Easy to Use

Just wipe it on, let it dry to a haze, wipe it off and allow it to cure for 8-12 hours. No buffing required.

Eliminates the Need for Wax

RejeX leaves an unbeatably deep, long-lasting shine, and most grime easily comes off with a stream of water or a wet rag – significantly reducing cleaning time. Even the most stubborn grime needs only a light touch with mild detergent.
