

# RIGHT OFF ...

Prevents RUST and is  
D.O.T. NON REGULATED!!!

RIGHT OFF does not contain  
MURIATIC ACID ... salts or chlorides  
And it's biodegradable.

**RIGHT OFF** is a liquid compound specifically formulated for the specialized heavy duty cleaning requirements of the Concrete Ready Mix Industry

**RIGHT OFF'S** highly concentrated formulation is compounded to maintain sufficient acidity to remove concrete at affordable dilutions. It may be used to remove concrete from mixers, hopper areas, inside the back rings, rear support structures, chutes, etc.

As a detergent and degreaser **RIGHT OFF** may be used to remove chain sling, hydraulic fluid, diesel oil, U-joint oil sling, roller bearing grease, etc. And road film associated with on-road equipment.

**RIGHT OFF** is safe to use. Its phosphoric action removes old rust and oxides, and conditions the metal so that no new rust is produced in the cleaning process.

**RIGHT OFF'S** active ingredients remove mineral deposits, while being mild enough for hand brushing with little or no skin irritation.

## TYPICAL ANALYSIS

PHOSPHORIC P <sub>2</sub> O <sub>5</sub> .....	100%
MURIATIC ACID .....	NEGATIVE
HYDROCHLORIC ACID .....	NEGATIVE
SULFURIC ACID .....	NEGATIVE
HYDROFLUORIC ACID .....	NEGATIVE
RINSE ADDITIVES .....	POSITIVE
NON-IONIC DETERGENTS ...	POSITIVE
SURFACTANTS .....	POSITIVE
POLAR SOLVENTS .....	POSITIVE
EMULSIFIERS .....	POSITIVE
SPECIFIC GRAVITY .....	1.254
WEIGHT .....	10.4 lb/gal

ODOR .....	MILD, SWEET
COLOR .....	GREEN LIQUID
VISCOSITY .....	66 CPS
FLASH POINT .....	NONE
FREEZING .....	(-) 76° F
VAPOR DENSITY.....	4 (AIR = 1)
STABILITY (SHELF LIFE) .....	18 month (@120° F)
FREEZE/THAW CYCLE ...	<small>FREEZES &amp; THAWS WITH NO DEGRADATION</small>
RINSEABILITY.....	<small>RINSES FREELY IN COLD WATER</small>
HARD WATER COMPATABILITY..	EXCELLENT
BIODEGRADABLE .....	100%
SOLUBILITY .....	100% (COLD WATER)

SANDSTORM DOES NOT CONTRIBUTE TO GROUND OR WATER CONTAMINATION

## DIRECTIONS

We strongly suggest that the user experiment with RIGHT OFF before establishing a cleaning procedure. Normally, we would recommend a solution of 4-parts water to 1 part RIGHT OFF if trucks are cleaned on a daily basis. This dilution may be modified dependent upon the amount of build-up and the frequency of cleaning.

RIGHT OFF is formulated to be successfully utilized with automatic spray systems, air induction foamers, manual spray systems or traditional bucket and brush method.

RIGHT OFF is always most effective when brushed, thereby removing already neutralized cement and at the same time, exposing un-neutralized cement to the cleaner.
