

SIMPLE GREEN® Lime Scale Remover

Technical Data Sheet
January 2014

Product Description: specially formulated to effectively dissolve and remove scale, scum and mineral deposits from: porcelain, ceramic, glass, chrome, acrylic, fiberglass and stainless steel.

- Low VOCs
- Organic salt solution
- Wintergreen fragrance
- Non-flammable
- Non-abrasive
- Phosphate free

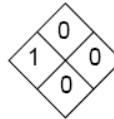

DIRECTIONS FOR USE: Always spot test on a hidden area of surface first.

1. Spray onto surface, or apply with a damp sponge or cloth.
2. Scrub around fixtures with a stiff, non-metallic brush to loosen heavy deposit build-up.
3. Immediately rinse thoroughly for shiny, clean results.

Properties: Translucent colorless liquid with added wintergreen odor.

Specific Gravity...	1.01 – 1.03	Boiling Point.....	101°C (213.8°F)
pH.....	1.0 – 2.0	Freezing Point....	0 - 3.33°C (32 - 38°F)
<i>Does not corrode steel per Method 1110A.</i>			
Flash Point.....	Nonflammable		
VOCs.....	CARB Method 310 -	0.012 g/L	0.0001 lb/gal
			0.0012 %

- Eye Contact:** May cause eye irritation.
Skin Contact: Not expected to cause skin irritation.
Ingestion: May cause upset stomach.
Inhalation: Not expected to cause respiratory irritation.

NFPA/HMIS Rating Health = 1 (minimal) Fire, Reactivity, Special / PPE = 0 / none

Shelf Life: In unopened containers, under normal storage conditions, Simple Green is expected to last five years or longer. Opened containers cannot be guaranteed due to uncontrollable variables. Uncontaminated opened containers under normal storage conditions may last five years or longer.

Storage: Store in a cool dry place. Do not store in direct sunlight. Four hours above 109°F (42.7°C) will result in formula separation. Longer exposure will cause ingredient degradation and loss of efficacy. Do not allow to freeze. Prolonged storage at or near freezing, 23-40°F (0-4°C), will result in ingredient degradation and loss of efficacy.
